Do you know your APR?

You purchased your vehicle and made decisions about the color, the make, the model, how long you need financing, what the APR would be, rebates and warranties and other things, as well. But now, you've had a little while to ease into your new ride and you should be asking yourself, what is my APR and how many months am I paying on my vehicle?

The loan officers at AAA FCU will be happy to take a look at your vehicle loans and see if they can make your payments and/ or months of financing lower than your current situation.

For our most up-to-date loan rates, check out our website at www.aaafcu.com/rates.

But you can never beat a phone call or quick visit with one of our loan officers!
